Goat and sheep production in the tropics.

This book is the latest in Longman's Intermediate Tropical Agriculture Series, and it provides a comprehensive account of the husbandry and productivity of goats and sheep in the tropics and in several subtropical areas such as North Africa, Turkey and South Africa.

Tropical Vegetable Production

Sustainable crop production is vital to ensure that supplies of fresh vegetables and their products are readily

available. However, food security still remains a huge problem in areas of the world, including the tropics and sub-tropics, where communities rely solely on subsistence farming to meet their day to day food demands. It is evident that food production needs to become more sustainable ...

Vegetable Gardening In The Tropics

Vegetables Cultivated in the Tropics. Tomatoes will grow in the tropics, but plant them during the winter or dry season, not the rainy season. Choose a heat tolerant variety and/or cherry tomatoes, which are hardier than larger varieties. Don't bother with traditional lettuce varieties, but Asian greens and Chinese cabbage do well.

A BEGINNER'S GUIDE TO SMALL

Beginner's Guide to Small-scale Tropical Agriculture Page 3 Crops grown on the small tropical farm are usually basic subsistence crops: grains, legumes, roots and tubers. These crops are the best ones to grow to sell for they are the crops used in large amounts by others. Traditionally little attention is paid to fruits and vegetables.
